PROFESSIONAL EXPERIENCE

VODAFONE

Product Lead – Enterprise AI, Agentic Workflows & Digital Products
Dec 2023 – Present

Lead Vodafone Networks' Enterprise AI and AI Workforce Augmentation portfolio, defining AI-first product strategy, governance, operating model, roadmap, investment planning, and value realization across AI assistants, Copilot-native agents, agentic workflows, and knowledge management products.

Key achievements:

- Established Vodafone Networks' AI Workforce Augmentation portfolio, creating a unified framework for AI product governance, agent lifecycle management, knowledge management, demand intake, and decision intelligence.
- Lead a strategic AI portfolio spanning 5 product domains and 15+ AI-powered products, targeting €7M+ business value across a 5-year lifecycle.
- Built and scaled AI assistants, Copilot-native agents, and agentic workflows across network design, architecture, testing, operational knowledge retrieval, contract intelligence, demand management, and decision support.

- Led Microsoft Copilot and Agentic AI adoption initiatives for a 10,000+ employee enterprise community.
- Defined AI product evaluation and value measurement approaches covering answer quality, knowledge coverage, task completion, adoption, rework reduction, capacity release, user satisfaction, and business impact.

MEGAFON
Head of Product
Jun 2021 – Nov 2023

Owned one of the largest digital consumer products in the region, leading product strategy, roadmap execution, growth, customer experience, product operations, and cross-functional delivery across Product, Design, Engineering, Marketing, Analytics, and Business stakeholders.

Product scale: 16M MAU, 2.7M DAU, 4 Senior Product Managers, 2 Product Marketing Managers, 72 FTE delivery organization.

Key achievements:

- Achieved customer experience metrics with CSI 78% and NPS 72%.
- Increased product MAU by 1M+ users through expansion into a new customer segment.
- Increased customer engagement frequency by 25% through ecosystem-based digital services and strategic content partnerships.
- Reduced average release lead time by 2 days through product organization redesign and delivery process optimization.

Senior Product Manager – B2B SaaS & Digital Commerce
Jun 2019 – Jun 2021

Led a portfolio of B2B SaaS products and digital commerce solutions across enterprise software, e-commerce, product growth, and platform integration.

Key achievements:

- Increased paid product orders by 2.5x through consolidation of fragmented product journeys into a single e-commerce platform.
- Delivered over 1M MAU growth through market expansion and product positioning initiatives.
- Launched enterprise SSO capabilities and improved feature delivery speed by 50% through process redesign and delivery optimization.

EARLIER EXPERIENCE

PINKMAN
Group Head
Nov 2017 – Mar 2019

Built and led a Project Management organization of 4 Project Managers and an 18-person delivery organization. Delivered 20+ digital products across Financial Services, Insurance, Corporate Platforms, E-commerce, and Digital Portals, including a no-code insurance platform enabling launch of new insurance products within two hours.

CREATIVEPEOPLE
Project Manager
Oct 2015 – Nov 2017

Managed digital product and delivery streams across web platforms, digital commerce, and customer-facing products. Improved delivery speed by 1.5x and coordinated cross-functional teams across design, engineering, business analysis, QA, and client stakeholders.

EDUCATION

Belarusian State University
Bachelor's Degree in Business, Management and Marketing
Sep 2009 – Jul 2013
